Description: The Daily Tennis app contains the Daily Tennis videos from the shows running throughout 2017 and 2018. The videos were created by a couple of tennis players in order to hold themselves accountable to play tennis everyday, but rapidly turned into a phenomenon. Starting with just the original creators, several “guests” appeared on the show including foreign exchange students, teachers, school administrators, staff from other schools, and even the city mayor.

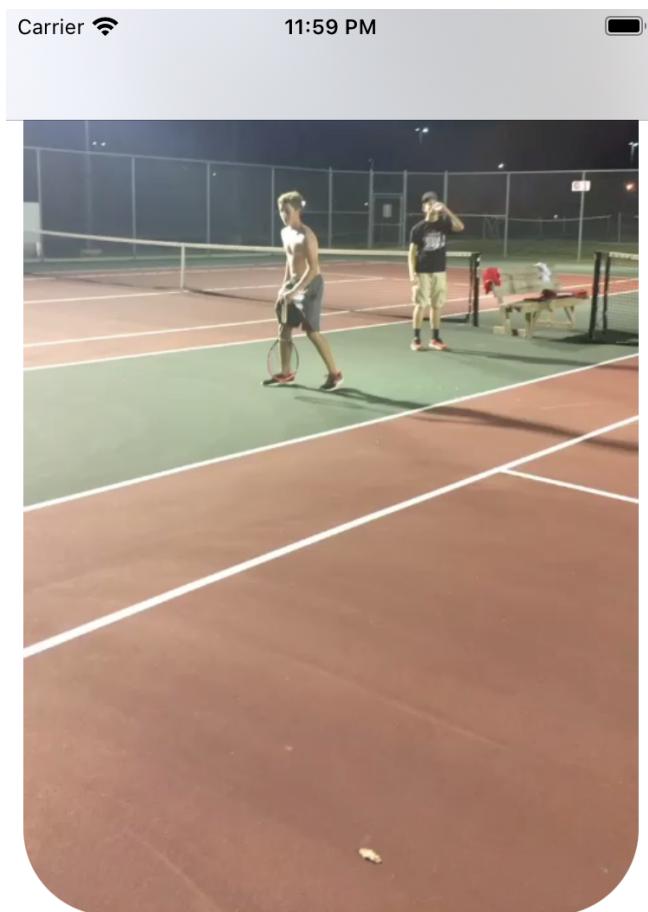

Promotional text: Relive the Daily Tennis show in its entirety through the Daily Tennis app! The videos, once only displayed for 24 hours each, are now available whenever you want to watch with the release of the Daily Tennis app.
